

- Contains insect meal
- 100% free of marine ingredients
- Larvae shaped pellet
- Effective growth
- Vibrant colors
- Highly sustainable

## COMPOSITION:

Analyses (%)		Size:
Protein	45%	4.0/12 mm
Fat	12%	
Crude fibre	2,9%	
Ash	6,7%	
Astaxanthin (mg/kg)	20	
Vitamins added		
Vitamin A (IE/kg)	10.002	
Vitamin D (IE/kg)	3.000	
Vitamin E (mg/kg)	200	
Vitamin C (stable) (mg/kg)	250	

The values of the nutrients and vitamins are from the time of writing. These values can vary due to natural variation in the ingredients. We reserve the right to change our recipes. For the exact values we refer to the label.

\*Antibiotics should not be top coated on clay (bentonite) containing feeds as the clay could interfere with the effectivity of the antibiotic.

## PERFECT FOR FEEDING ALL KOI:

## APPLICATION:

Midori is a complete floating and insect rich feed with a high protein level to promote growth. Also, Midori is 100% free of fish meal and fish oil, therefore highly sustainable.

Fish meal has been replaced by insect meal. Furthermore, it contains astaxanthin to support the rich colors in your koi.

The Midori pellet has been produced in 3 different larvae shapes which stimulate the natural feeding pattern of the koi.

\* Feed 2-4 times per day depending on fish size and water temperature and no more than the koi eat within 5 minutes. Remove uneaten feed from the pond in case of overfeeding. At water temperatures below 10 °C koi have a reduced appetite and slow digestion, therefore feed accordingly. Don't feed koi if the water temperature is below 5 °C.
